

## GET THE TOOLS AND GET TO WORK

Whether you're doing a simple project or a major remodel, renting lets you spend **time** getting the job done, not shopping for tools.

**RENTING. SO SMART,  
SO EASY.**

Come in today to put the value of renting to work for your next project.

# renting

YOUR SMART VALUE

HOME IMPROVEMENT/DO-IT-YOURSELF

## top reasons to rent

- 1** Your nearby rental store is like a giant garage filled with useful tools you didn't have to buy and without the problems that machines in storage can develop.
- 2** Let professionals handle — and pay for — tool maintenance and upkeep.
- 3** Get the exact tool you need rather than trying to “make do” with something else — a screwdriver will never be a chisel and a shovel will never be a power auger.
- 4** Jackhammers, trenchers, concrete saws, pressure washers — the list of professional-grade tools you can rent to get projects done quicker and easier goes on and on.
- 5** You won't have to worry about storing tools or risk them becoming obsolete.

- 6** Get started right away with instructions and tips from the rental store.
- 7** You'll not only have just the right tool at just the right time, but also you'll be using higher quality commercial-grade equipment that you wouldn't normally buy for yourself.
- 8** Most do-it-yourself construction, home projects and remodels are only done once, so why go to the expense of long-term tools for short-term projects?
- 9** Your neighbors can't borrow or lose your tools.
- 10** Unless you'll use the tools often for a long time, renting is always more cost effective.
