YOUR SMART VALUE

PROFESSIONAL PARTY/EVENT

## top reasons to rent

- 1 Think of your nearby rental store as your business' warehouse, except that you didn't have to pay to stock it.
- 2 Let someone else handle — and pay for — the maintenance and upkeep of equipment and furnishings.
- 3 Events come in different sizes and styles, and so does everything available at your rental store.
- 4 Eliminate the need for a large warehouse or storage area.
- 5 Rental costs can be passed directly to your customers without the accounting headaches of additional overhead, depreciation and storing unused furnishings and equipment.
- 6 Chairs, tables, linens, glassware, flatware — get the exact amount you need to match the size of any event.
- 7 When a client asks for just about anything, you'll be able to confidently say, "Sure, we can get that."
- 8 Delivery options and set-up assistance are often available, saving you coordination time so you can concentrate on facilitating the event.
- 9 Save time and expense by taking supplies from the rental store straight to the party site rather than loading and unloading from your storage area.
- 10 When décor and other trends change, you won't be stuck with unwanted or outdated furnishings and equipment.
